Fire personnel on helicopter 361EH reported this 10 acre fire at 1822. Fire behavior was smoldering and creeping with isolated torching in black and white spruce with mixed hardwoods and a low rate of spread. J-12 responded and deployed 8 smokejumpers on the fire at 1858. Smokejumpers continued cutting a line for a hose lay to the fire. A Type 1 crew was requested for tomorrow's operational shift.

911 dispatch reported a smoking tree on a powerline. Two forestry engines and the Rural Deltana VFD responded. The VFD was released. The powerline burned through the tree and when it dropped to the ground, forestry personnel safely initiated suppression action. The fire was contained and controlled. The fire was placed monitor status.

The fire was reported by a private party as a 10 x 10 smoldering spot on top of a ridge. Once plotting the fire on a map, it was shown to be in Limited. Air attack 9FG responded to recon the fire. JBER also sent a brush truck to try to locate it. After multiple orbits, 9FG was unable to locate the fire and returned to base. This fire will be placed in monitor status. The cause at this time is unknown.

AST requested DOF respond to vehicle fire which spread to the wildlands. Vehicle was located 1/4 off the roadway and was in black spruce. On arrival the vehicle was fully involved and putting up thick black smoke. Personnel waited for CES to extinguish the vehicle so they could suppress the wildlands that were involved. The fire was called contained, controlled and was placed in monitor status.

#649	Owner: PRI		Admin: PRI-Private	
	Name: Long Creek		Cause: Human	

While responding to a reported fire by Chatanika Lodge (fire 648), ASM A-4 reported the Long Creek fire. All aerial and ground resources being dispatched to fire 648 were then reassigned. The fire grew to 40 acres and around 2130 A/A 35E reported the fire activity to have moderated. At the time of this report, fire resources continue to suppress the fire and await crews and equipment en route.

Fairbanks Area Forestry received a smoke report from Alaska State Troopers regarding, "something burning near Chatanika Lodge." ASM, engines, air tankers, jumpers, helitack, and heavy equipment were dispatched. The something burning turned out to be the Chatanika Gold Dredge. As that was discovered fire 649 was reported and all resources were reassigned. After monitoring that the dredge fire wasn't going to spread to the wildlands, fire 648 was declared out.

The Fort Yukon #1 crew continued full suppression activities today, successfully mopping up the fire one chain in from the perimeter. The fire is burning deep in the Upper Yukon Lake shore peat moss, creating numerous smoldering ash pits. Creeping and smoldering fire behavior was observed as temperatures peaked in the high 80's and RH dipped to 21%. Mop-up and gridding in the green will continue through the next operational period.

Using aerial firing, Chena and Midnight Sun IHC's assisted in completing a burnout which will secure the fire within the road system. Objectives for the burnout were met, though the area will require monitoring for any flare-ups in remaining green pockets near the perimeter. Patrol and monitoring of the Chena River continued where afternoon winds, low humidity, and dry fuels led to increased activity in interior green islands. A cabin site within a green island is threatened by surface fire, and action will be taken to protect the site once again. Firefighters continued to hotspot and mop-up near the South Fork Chena River. Rehab Group continued to repair areas on the southwest side of the fire. Continued concerns remain near contained areas along the perimeter, where widespread pockets of unburned fuel and dozer berms continue to hold heat. Continued warm, windy, and dry weather will require extensive monitoring around the fire perimeter to assure containment lines remain secure, as resources are dispatched to threatened areas as needed.
